Real Practice, Real Results!

thinkbig TOPIK

Boost Your TOPIK Score with AI-Adaptive Practice

An AI-powered TOPIK prep solution featuring level testing, 3,000+ practice questions, expert video lessons, and real-time writing feedback.

It supports 10 languages and includes an LMS, mock exams, and a full curriculum for all TOPIK levels — empowering both learners and instructors in TOPIK preparation.

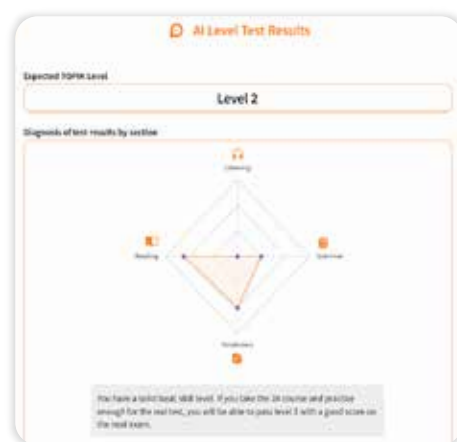

Learner Testimonials

Real Feedback from Learners Worldwide

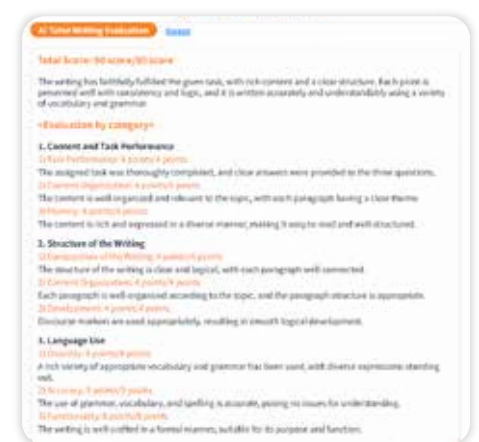

There were plenty of practice questions, so I could try different types and get lots of practice — Super useful!

Korean major student, Silpakorn Univ.

Taking the level test first helped me understand my current Korean level — it really made getting started easier.

Beginner-level student

The instant feedback was super helpful. When I wasn't sure what to write, the built-in tips provided the guidance I needed.

Advanced-level student

Key Features of thinkbig TOPIK

Designed as a unified workflow to streamline instruction and strengthen every stage of TOPIK learning.

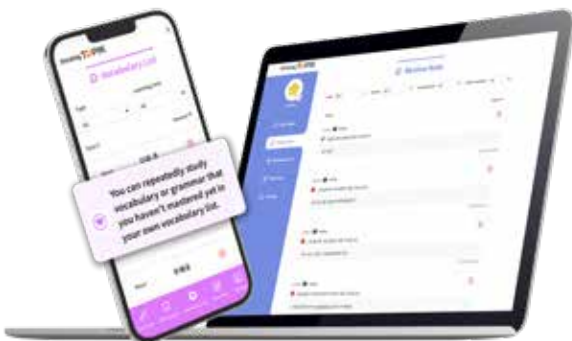

AI Level Test

Start with a smart placement test and receive a personalized study path. Available both online and offline, covering 12 proficiency levels.

Video Lesson / Vocab & Grammar

Short, level-based videos focusing on essential vocabulary and grammar, including multilingual subtitles and example-based exercises.

Review Note / Vocabulary Book

Save missed questions and key vocabulary for later review. Track individual progress and spot weak points before the exam.

AI Writing Tutor

Receive instant scoring and feedback based on official TOPIK rubrics. Practice questions 51-54 with guided answers and detailed writing analysis.

Mock Tests / Previous Tests

Practice with mock and previous tests featuring instant scoring and feedback to be perfectly prepared for the real test.

Learning Report

Track progress, review mistakes, and spot weak points with your personalized learning Report, a smart tool for effective self-study.
